

## Club Doctor

### Western United Football Club

- Melbourne ▶ Victoria ▶ Australia
- Contract Role

### About Us

Western United Football Club proudly represents the vibrant communities of western Victoria, encompassing urban, regional, and rural areas. Since our inception, the club has rapidly expanded from an A-League Men's team to include an A-League Women's team, a Boys Academy Program, and a Girls Pathway Program.

Driven by a spirit of hard work and aspiration, Western United FC is committed to fostering the growth of football and embodying the resilient and dynamic character of the west. With inclusion, equality, and determination at our core, our ethos shines through from the boardroom to the pitch.

Our ambitious journey, in collaboration with dedicated partners, aims to shape the future of football in the region. We're building a legacy that will unite generations, featuring a state-of-the-art stadium, championship-winning teams, and an inspiring brand. Based in the heart of Wyndham Council at Ironbark Fields in Tarneit, Western United is setting a new standard for professional sports clubs in Australia, providing the western football community with a strong and proud identity.

### The Role

Reporting to the GM of Football, you will play a vital role in our multi-disciplinary team, supporting both Men's and Women's A-League teams. Your primary responsibility will be to develop and implement strategies for player injury management and prevention, working closely with our High Performance and Medical Team to ensure the optimal health and performance of our professional athletes.

#### Key Responsibilities:

- Manage player health and annual Medical Assessments.
- Oversee injury management and necessary referrals.
- Monitor medication and supplement use, ensuring compliance with APL/FA guidelines.
- Deliver anti-doping education workshops.
- Manage concussion protocols and ensure compliance.
- Maintain detailed medical records and administer injury reporting systems.

- Develop injury prevention programs and support physiotherapists with complex cases.

### **Your Skills and Qualifications:**

- Fellow or registrar of the ACSEP, or Sports Doctor certified by Sports Doctors Australia.
- Registered medical practitioner with AHPRA.
- Advanced CPR or sports trauma course completion in the last 3 years.
- Experience in elite team sport environments.
- Outstanding communication, IT, and organizational skills.
- Valid Working with Children Check and Victorian Driver's License.

### **Desirable:**

- Understanding of WADA regulations.
- Experience with elite football clubs or national associations.

We are on the search for a strong team player with a results-driven attitude. You are proactive, positive, and detail-oriented, and making a difference is what you do best.

Flexibility to work matchdays (including weekends and evenings) is required. Our brand new facilities are based in Melbourne's west, Tarneit, with the occasional requirement to travel to other areas as the role requires.

If you're passionate about player health and injury management and making a difference to our club, apply now!

## **Essential Requirements**

- National Police / Criminal History Check
- Working with Children / Working with Vulnerable People Check
- Drivers Licence
- Active ABN

## **Application Instructions**

Please email a current Resume and Cover Letter to [careers@wufc.com.au](mailto:careers@wufc.com.au) outlining your alignment and suitability for this contract role. Shortlisted Applicants will be contacted throughout the application period.
